

Eligible Services List

Overall very good, with two questions?

1. Pg 52 "Voice/Video over IP" Yes or No?

2. Pg 56 "Finance or Interest Charges" Currently the SLD is taking 90-120 or more days to analyze, approve and pay Form 474 Invoices. One of the primary focuses of the entire E-Rate program is to provide products and services to the Schools and Libraries at the best possible price. My prices do not reflect financing the projects for months after completion. In the future my pricing will either have to be based upon payment in that time period or go back to the BEAR payment method, letting the School District wait for re-imbursement. If I do not pay my Federal 941's or income taxes on time I am penalized Penaltys and Interest. I have to pay interest and finace chrarges to my suppliers such as Graybar and Ingram Mico, but I have no way to recover those costs. The State of Texas even pays if invoices are not paid within 30 days. We have got to find a better way, or include interest charges as eligible.

Thank you,

Hurley Johnson
